

Catch the skincare safety wave

Key Feature #1:

Maximized Performance

Its Benefit:

OPHYTRIUM™ provides simultaneous action on the 3 skin barriers (the physical, microbiological and immunological) for maximum skin barrier ecosystem protection.

Key Feature #2:

Maximized Simplicity

Its Benefit:

Only the essential ingredients. No soaps, sulfates, parabens, colorants, phthalates or nanoparticles.

Key Feature #3:

Maximized Safety

Its Benefit:

Formulas tested in acute field conditions for maximized safety for pets and their owners.

Chlorhexidine can cause rare, but serious allergic reactions in humans. If you experience allergy symptoms, discontinue use immediately and seek medical treatment. Do not use DOUXO® S3 PYO Mousse on cats. Do not use DOUXO® S3 PYO Pads between the toes of cats.

Safe Skincare Selection

OPHYTRIUM™ has simultaneous action on the three skin barriers.

1. Helps support the skin's physical barrier for supple, long-lasting, hydrated skin.¹
2. Helps support the microbial flora for healthy skin by limiting *Staphylococcus aureus* and *Staphylococcus pseudintermedius* adhesion and biofilm formation.³
3. Helps reduce irritation to soothe skin.²

DOUXO® S3 was designed to be extremely safe for dogs and cats* and their family. It was tested in acute conditions with a rigorous protocol to validate safety.³

Chlorhexidine can cause rare, but serious allergic reactions in humans. If you experience allergy symptoms, discontinue use immediately and seek medical treatment. Do not use DOUXO® S3 PYO Mousse on cats. Do not use DOUXO® S3 PYO Pads between the toes of cats.

The DOUXO® S3 range has been clinically proven.

DOUXO® S3 CALM – proven to have a beneficial effect on dermatology conditions. 70% of dogs with Canine Atopic Dermatitis showed a 63% improvement in the CADESI-04 score by 21 days.⁴

DOUXO® S3 SEB – proven to reduce dandruff, excess sebum, and malodor by 91% in 24 days in dogs with idiopathic seborrheic disorders.⁵

DOUXO® S3 PYO – proven to decrease the bacterial overgrowth score by 52% in dogs in 21 days.⁶ Proven activity on *Malassezia pachydermatis*, even at diluted proportions.^{6, 7}

Start an Effective Team to Pet Owner Conversation

If engaging in an initial discussion, state the issue:

Ms. Jones, my exam revealed that Spot is showing signs of dermatology conditions.

Or, for a follow up visit, Ms. Jones, my exam revealed a need to modify Spot's treatment plan for managing dermatology conditions.

State the solution

DOUXO® S3 helps/provides a solution for your dog presenting with signs of dermatology conditions.

Make your recommendation

Ms. Jones, I believe DOUXO® S3 will provide an important tool for managing dermatology conditions for Spot. Do you have any questions?
